Reminder of Article 49.01 about Enduro tyres

Dear Madame, dear Sir,

By this letter we kindly remind you that for all FIM Enduro World Championships events, all participants will need to prepare their motorcycle in conformity with the 2022 Enduro Technical Rules. These rules can be downloaded here:

<https://www.fim-moto.com/en/documents/view/2022-1-enduro-isde-technical-rules-final-17-02-2022>

We want to focus your attention to article 49.01 and in particular to the paragraph:

Any marking on the tyre reporting "FIM" approved or similar is forbidden for new production dates (from 2018). FIM Quality Products are exempt of this rule.

Our CTI commission and its appointed members will not allow anymore tyres that don't follow this rule. We encourage you and your teams to check carefully all the tyres that will be used from now on during FIM Enduro World Championship events.

Unfortunately, some models of Mitas Tyres don't comply with our rules. The Manufacturer was informed and they have just started to work on this matter in order to solve it.

Exceptionally, it will be also allowed to erase the forbidden marking during next events, as an extraordinary solution.

Here you have a small guide to recognize these non-allowed tyres:

If you want to erase the forbidden marking, please follow this procedure:

If you need more info, please contact with us.

MIGUEL SANCHEZ UNGRIA

TECHNICAL COMMISSION COORDINATOR
